Motivated Computer Science undergraduate with hands-on experience in AWS, DevOps, and cloud-native deployment.

Proficient in building full-stack MERN applications and applying Infrastructure as Code using Terraform.

Skilled in AWS services including EC2, S3, and tools like GitHub Actions and MongoDB Atlas.

Led and contributed to tech accountability communities with a focus on collaboration and growth.

Currently pursuing certifications in Cybersecurity and AWS to strengthen cloud security capabilities.

WORK EXPERIENCE

TechCentrics

09/2024 - Present

A tech-focused accountability community that supports consistent learning across areas like Cloud, Data Analysis, and Web Development.

Founder & Community Lead • Board

Nigeria

- Built and lead a tech-focused accountability community that supports consistent learning across areas like Cloud, Data Analysis, and Web Development.
- Facilitated daily check-ins, peer learning, and resource sharing to enhance member engagement and growth.
- Helped 8+ members stay on track with learning goals and daily check-ins, resulting in a 50% increase in productivity.
- Designed and hosted a 30-day accountability program to help individuals learn and stay committed to mastering a tech skill.
- Fostered a focused micro-community with shared goals, and progress tracking.
